

Dear Parents:

The provided packets are materials to access during this hectic time. Teachers have prepared these materials and are providing these directions to help you complete educational instruction from home. The resource page sent out will still be a good asset to continuing the learning from home. There may be some suggested learning for students to complete that come from their iReady or Connect Ed accounts. Teachers will be available to email and Zoom, by appointment, if there are questions on work. Emails will be returned within 24 hours. Please note this learning and work will not be graded, however we strongly encourage participation in continuing the learning for our students.
