

PROXY LOG POLICY

In compliance with Children's Internet Protection Act (CIPA), the district monitors and filters the Internet usage of all employees and students. This is done through the use of a proxy server that filters Internet content and provides a log of Internet usage. Due to the large nature of these logs 20-30MB/day, data storage is a concern. Therefore, it will be the practice of the district to retain these proxy logs for a period of 3 months. After this period, the logs will be removed from the district data system.
